

Women's Health East
Investing in Equality and Wellbeing for Women

Guide to Services for Women

This booklet contains information regarding a range of services that are provided by health and community organisations to support women who work, live or study in the Eastern Metropolitan Region. Some of the organisations work across the state and some work more locally.

For further assistance or information, women can contact Women's Health East. Women's Health East **does not provide direct services to women** however we can refer them to people/organisations that can assist them.

For a more comprehensive list of more links to local services, visit the Women's Health East website. This booklet is not a complete list and does not imply our 'endorsement' of a particular service or program.

Women's Health Organisations

Women's Health East

Women's Health East is a regional non-profit women's health promotion agency working across the Eastern Metropolitan Region of Melbourne. We work to improve the health and wellbeing of girls and women. Our catchment area covers the seven Local Government Areas of Yarra Ranges, Maroondah, Knox, Whitehorse, Monash, Boroondara and Manningham.

Women's Health East has 4 main priority areas. These include;

- Gender Equity
- Prevention of Violence against Women
- Promotion of Mental Health and Wellbeing
- Enhancing Sexual and Reproductive Health

The health promotion team at Women's Health East works exclusively in gender-based health promotion, which involves:

- Working in partnership with other health and community agencies to promote gender-based planning in health promotion and service delivery, and to improve service system access and responsiveness for women
- Training and education programs for service providers on women's health issues and gender awareness in planning and service delivery
- Research into women's health needs
- Advocacy and consultancy within the health and community sector to promote women's health and wellbeing
- Raising awareness of health and wellbeing issues experienced by women
- Partnerships with service providers and establishing networks to improve services for women
