WE'RE ALL IN THIS TOGETHER

Maroondah City Council
Beyond Sparkles and Superheroes

The list is comprised of books that have been selected because they promote positive gender equality messages and celebrate children's individuality. The early years is an important setting to target because already children are absorbing messages relating to gender, and books and stories are communication and learning tools that can either reinforce or challenge traditional gender stereotypes. The books compiled in 'Beyond Sparkles and Superheroes' support the idea that gender does not limit children's opportunities to realise their full potential, and that small differences – such as likes, dislikes, strengths and weaknesses – are not based on gender. This list is designed to complement other books and traditional stories available in the library.
