## THERAPEUTIC GUIDELINES

*eTG complete* is recognised as a leading source of accurate, independent and practical treatment advice for a wide range of clinical conditions. It includes explicit instructions for therapy, assisting practitioners in making decisions to ensure their patients receive optimum treatment. The guidelines for medical abortion provide guidance to both providers and referring clinicians on initial assessment, prescribing and follow-up after medical abortion. Note: a paid subscription is required in order to access *eTG complete*.
